Registered Childminding Services from South & West Region

INSTITUTE OF EARLY CHILDHOOD DEVELOPMENT
1st Edition / March 2019
Introduction

Many countries are recognizing and placing strong emphasis on the importance of 0-3 years and childminding services. Seychelles is no exception and has made remarkable progress in this area. In 2014, the Institute of Early Childhood Development (IECD) was mandated through the IECD Act 2014, to regulate childminding service, grant registration and ensure compliance with standards. The registration of Childminders was initiated in 2016 following enactment of the IECD (National Standards on Childminding Regulation) 2016.

According to the IECD Act 2014, a 'Childminder is a person who takes care of four or more children of and below the age of four for a fee or remuneration'. The person provides a safe and caring environment where children can play and develop life skills, offers parents a greater choice of quality, flexible and affordable childcare and family support service.

This booklet presents childminding services being offered by Childminders from South and West Region. Its aim is to provide information on registered childminding establishments to parents, relevant authorities and services in the community, and the general public.
